Experience

2009 KaosStudios: *Focus Group Participant*

Called in to preview previously unannounced game (Homefront) and effectively communicate my opinion on what aspects of the game demo were successful and critique aspects that were not.

2008 - 2009 G M D Three Studio: *Design - Animation - Compositing - Visual Effects*

Worked on various projects with tasks of 2D Design/Animation, integrating 3D with live action, 3D visualization, tracking, keying and final compositing. Worked on a feature film, music videos and on-stage visual effects for live band performances.

Key Projects include:

“Bubble Trouble” - Feature film, Release date TBA

T.V. On The Radio - “Dancing Choose” , Music Video; Out Now

GreenDay - 2009 Concert Tour Stage Visuals

2007 - Intercall INC “Green Gal Series”: *Design - Animation*

Developed viral marketing campaign for which consisted of 3 animated shorts (approx. 1 minute each) which were distributed through their website as well as other social networking/video websites. Tasks included designing original characters, storyboarding, animating and compositing for final output.

2006 - Azul Partners (Azulpartners.net): *Co-Design - Programming/Development*

Worked with company owners to find an effective web solution to aide them in displaying their new jewelry to potential vendors. Retrofitted site with javascript based dropdown menus as site expanded

2006 - WinesUp.com: *Programming/Development*

Hired to add on new elements made by their current graphic designer to seamlessly integrate with the existing content. I also had the unexpected task of Decoding/amending actionsript that was made with french variables.

2006 - The Greater Bibleway Temple: *Post Production - Editing - VFX*

Did post production on program which aired weekly on a cable broadcasting channel
